¹The final results for the year ended 31 December 2019 have been prepared in accordance with International Financial Reporting Standards and, therefore, reflect the new IFRS 16 'Leases' accounting standard ('IFRS 16') effective for financial periods beginning on or after 1 January 2019. As the Company has adopted the modified retrospective approach, there has been no restatement of the comparatives for the 2018 reporting period. The impact on the Company's financial statements is summarised in the Chief Executive's Review and Financial Review and impacts the Income Statement, Cash Flow Statement and Statement of Financial Position. There is no overall impact on the Company's cash and cash equivalents.

²Underlying is before non-underlying items which includes amortisation of acquired intangible assets, impairment of goodwill, acquisition related fees and associated restructuring costs, movements in deferred and contingent consideration, non-recurring pension costs in relation to guaranteed minimum pension ('GMP') equalisation, and non-recurring costs relating to senior personnel changes.

2019 Financial Highlights¹

¹ Per disclosure on page 2

Results in-line with January 2019 guidance

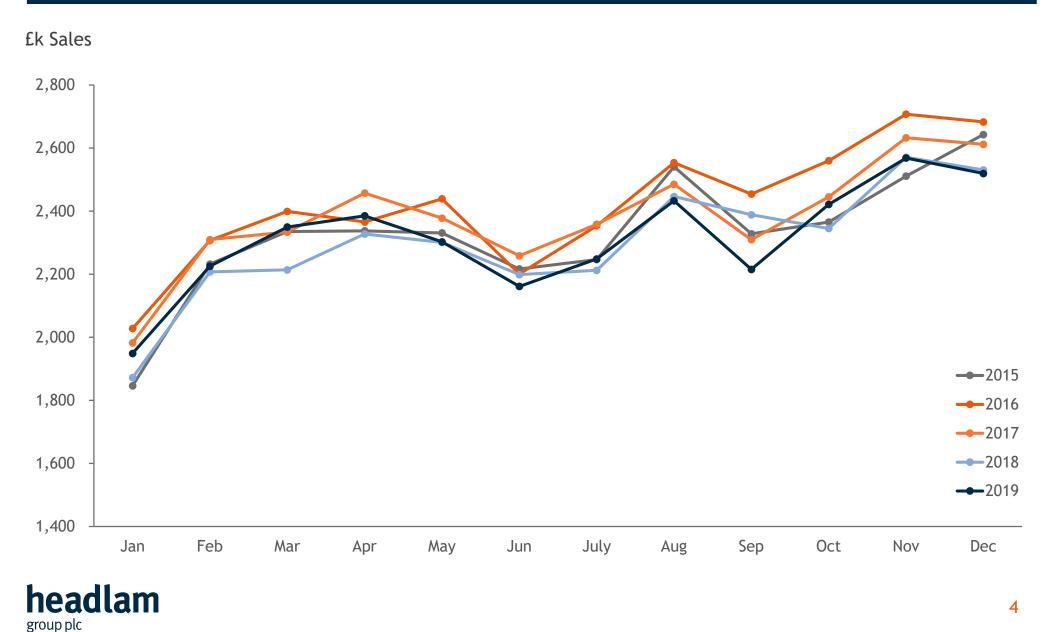

- Revenue increased by 1.5% to £719.2 million (2018: £708.4 million) despite a soft market backdrop and weakness in the UK residential sector
- Like-for-like² revenue increased by 0.3% and 3.2% in the UK and Continental Europe respectively, resulting in an overall like-for-like² revenue increase of 0.7%
- Gross margin of 31.9% (2018: 32.3%) was fairly resilient despite the expected shift in business mix towards the commercial sector as a result of market conditions
- Underlying³ distribution costs and administrative expenses were marginally up at £187.3 million (2018: £184.8 million, not restated), and flat as a proportion of revenue (2019: 26.0%; 2018: 26.1%)
- Underlying³ operating profit of £42.2 million (2018: £44.3 million, not restated) and statutory operating profit of £38.3 million (2018: £41.3 million, not restated) were lower than 2018 and in-line with guidance given in January 2019
- Underlying³ profit before tax of £39.5 million (2018: £43.4 million, not restated) and statutory profit before tax of £35.2 million (2018: £40.4 million, not restated)
- Cash generation remained strong, with cash generated from operations representing 146% of statutory operating profit, equating to 107% (2018: 121%, not restated) after adjusting for the IFRS 16 lease principal repayments
- Net funds of £27.0 million at year-end (2018: £36.7 million) following an increase in net cash outflows, including £13.4 million outflow on new Ipswich regional distribution centre
- Final ordinary dividend maintained at 17.45 pence per share (2018: 17.45 pence per share) giving a full year dividend of 25.00 pence per share (2018: 25.00 pence per share), in-line with previous guidance

² Like-for-like revenue is calculated based on constant currency from activities and businesses that made a full contribution in both the 2019 and 2018 periods and is adjusted for any variances in working days.

³ Underlying is before non-underlying items which includes amortisation of acquired intangible assets, impairment of goodwill, acquisition related fees and associated restructuring costs, movements in deferred and contingent consideration, finance costs on deferred and contingent consideration, non-recurring pension costs in relation to guaranteed minimum pension ('GMP') equalisation, and non-recurring costs relating to senior personnel changes

2019 UK Distribution Businesses Daily Sales*

* Calculated on a like-for-like basis, being based on activities and businesses that made a full contribution in both the current and previous year and adjusted for any variances in working days

Our Marketplace and Customer Base

Our Strategy

Our strategy is to build a successful company, positively impacting all stakeholders, and delivering sustainable long-term value

Mission

Provide our customers with a market leading service with unparalleled product knowledge and solutions across the broadest range of floorcoverings by working in partnership with our suppliers.

Vision

To build on our market leading position by offering excellent customer service and solutions across all areas of the floorcoverings industry, and work with suppliers to support the manufacture and marketing of innovative and sustainable products.

Our Strategic Objectives

	Strategic Area		Strategic Objectives	
	Industry position	 Grow leading position through improved performance and increased sales across all customer groups. 	• Broaden presence in the industry through growing in underweight product categories, customer groups and market segments.	• Ongoing investment in the network and people to support future growth and the sustainability of the Company.
\bigotimes	Operational Performance	• Roll-out of the operational improvement programme to improve both the operational and financial performance of the Company.	 Improve inventory management and product availability, while creating capacity for growth. 	• Continued collaboration between the Company's businesses and greater network optimisation.
	Customers and Service	 Continue to improve the customer service proposition through greater insight into the differing customer groups' preferences and requirements. 	 Continue developing tailored propositions specific to each customer group in both the residential and commercial sectors. 	• Enhance e-commence support for customers, including an improved transactional B2B website.
	Product and Expertise	 Remain leaders in product knowledge and expertise, with improvements in sales force development and CRM systems. 	• Enhance the product offering through increased product differentiation and exclusivity.	 Grow sustainable product offerings and support recyclable products.
	Suppliers	• Build upon existing partnerships with suppliers through increased engagement and a shared value proposition.	 Work with suppliers to improve production scheduling and buying. 	• Support suppliers in new product development and the marketing of innovative and sustainable products.
	People and Communities	• Continue to develop a positive workplace culture through colleague engagement, and embed a clear set of values and behaviours in the business.	• Focus on the provision of a safe and inclusive working environment where everyone can fulfil their potential.	 Reduce the Company's direct environmental footprint including through transport efficiency initiatives and energy efficient technologies.

2019 Operational Highlights

Strategic focus on improving, growing and broadening position within the floorcoverings industry

- Scope of ongoing operational improvement programme enlarged, with the constituent projects designed to grow revenue and improve the customer service proposition, operating performance and margin
 - Roll-out of inventory management and automated stock re-ordering system completed as planned in 2019, with benefits including improved product availability and warehouse capacity becoming increasingly evident
 - Trial successfully completed in 2019 under the transport consolidation project, with phased roll-out stage now commenced ultimately leading to a decrease in the cost to serve
 - New regional distribution centre in Ipswich remains on track, with the facility due to become operational next month at a total cost of approximately £26.0 million
- ISO 45001:2018 accreditation, the world's first international standard for occupational health and safety management, achieved across all 18 UK national distribution hubs and regional distribution centres

Operational Improvement Programme

Designed to grow revenue and improve the customer service proposition, operating performance and margin

 Scope of ongoing operational improvement programme enlarged 	 2019: Earlier stage contributions of over £1 million able to offset general non-employee related year-on-year inflationary pressures
 Ongoing implementation and roll-out of constituent projects, with increasing momentum 	 2020: Additional year-on-year benefit of approx. £1 million will cover additional supporting investment required
 Provides broad foundation for delivery of an improving operating margin 	 2021 and beyond: Progressive net contributions

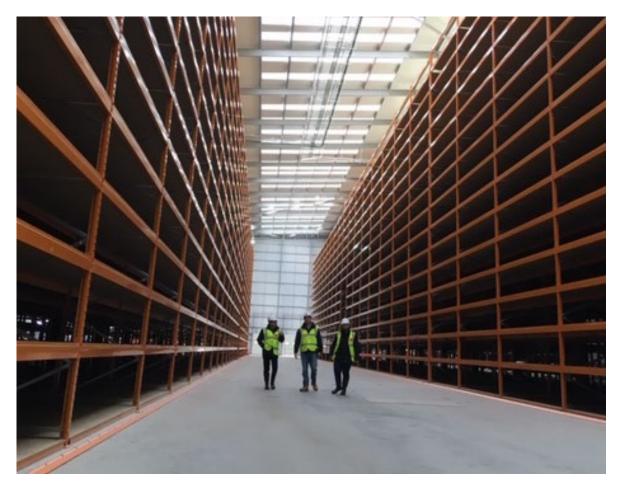

Operational Improvement Programme *continued*

Group procurement approach	 Including in the area of GNFR and extension of commercial and motor vehicle leasing contracts
Inventory management and automated stock-reordering	 Benefits of improved product availability, stock-turn, warehouse capacity and improved supplier production scheduling Coleshill: 3.5% improvement in customer availability, 4% improvement on best selling lines
Transport consolidation project	 Focused on more effective delivery fleet utilisation Successful trial in South Wales: 21.6% increase in average orders delivered per vehicle per day Now commenced phased roll-out stage
Enhanced customer service	 Including better tailored support and fulfilment propositions for different customer groups Customer insight work conducted, including customer surveys Resource added in the areas of customer engagement and key account management
New Ipswich regional distribution centre	 Enabling greater network optimisation and operational efficiency Improved customer service throughout the South East Expected to become earnings enhancing during 2021

New Ipswich Regional Distribution Centre

Operational in April 2020

- On-track in terms of both cost and timing
- Total capital investment of £26 million, including land cost of £4 million
- Brownfield site
- 190,000 square feet
- State-of-the-art, with 10.6 million cubic feet of capacity
- Creating a significant number of additional jobs in the local area

Corporate Responsibility and ESG

Activities Overview

Independent Health and Safety audit commissioned

An independent Health and Safety audit commissioned, with the resulting recommendations being actioned to strengthen the provision of a safe working environment which positively impacts not only our workforce but also the communities in which we operate.

Voluntary early compliance with SECR scheme

Voluntary early compliance with the UK government's new Streamlined Energy and Carbon Reporting ('SECR') scheme introduced to encourage organisations to become more energy efficient, and engagement with an external energy data collation and verification company to assist in identifying additional energy saving actions.

Introduction of Environmental as a Principal Risk

Enhanced risk assurance activities and introduction of Environmental as an additional Principal Risk in recognition of the critical issue of Climate Change, and to generate a greater focus on our actions in mitigating our direct environmental impact and working as part of the overall floorcoverings industry in reducing its environmental footprint.

Development of a positive workplace culture

Development of a positive workplace culture through new Values and Behaviours workshops, launch and roll-out of apprenticeship schemes to develop skills and aid succession across the business, and establishment of an Employee Forum for employee feedback to be considered directly by the Board.

Greater focus on sustainability

Greater focus on ensuring the long-term sustainability of the business through the acceleration of the operational improvement programme designed to improve operating and financial performance, the customer service proposition, as well as reducing environmental impact through more effective delivery fleet utilisation.

Strategy, Investments and Acquisitions

Strategy to improve, grow and broaden our position within the floorcoverings industry

- Remain underweight in certain product categories, customer groups and market segments
- Presents revenue and margin growth opportunities

Ongoing investment to support future growth and improved operational and financial performance

- Capital expenditure of £18.3 million in 2019
- Substantial level of investment to be continued into 2020, with final tranche of £10 million on Ipswich forming the majority

Acquisitions in support of strategy

- Telenzo, the nationwide UK distribution company for Edel Carpets, completed in October 2019
- Supertex, residential sector distributor based in the North West, completed post year-end
- Continue to monitor targeted pipeline of acquisitions in-line with strategy of growing and broadening presence in the wider industry

Dividend, Current Trading and Outlook

Dividend

- 2019 full year dividend maintained in-line with Board's previously stated intention
- Final ordinary dividend of 17.45 pence (2018: 17.45 pence), giving a full year dividend of 25.0 pence (2018: 25.0 pence)

Current Trading and Outlook

- No direct impact from the spread of Coronavirus to date
- Mitigation plans in place, supported by extensive inventory position (£132.5 million) and large geographical spread of suppliers (190 suppliers in 19 countries)
- Continue to anticipate 2020 financial performance to show a modest improvement compared with 2019 despite trading to date in 2020 being marginally below Board's expectations
- In-line with progressive dividend policy, Board's intention to reflect any increase in 2020 statutory basic EPS in 2020 full year dividend

Appendices

Investment Case

Significant scale and longevity of operations underpinned by capital efficiency, progressive dividend policy, and operational improvement programme to improve performance.

Exposure to future UK economic growth.

Market Leader	 28 years of operations, with market- leading position, people and expertise. 	 Significant scale and market penetration, with centralised resources and multiple businesses. 	 Increasing sustainability by broadening presence in the industry and growing in underweight product categories, customer groups and market segments.
Financial Strength and Dividend	• Strong balance sheet and cash generation, with cash generated from operations at 146% of statutory operating profit in 2019.	• Net cash of £27.0 million as at period- end, and following capital expenditure of £18.3 million on new Ipswich regional distribution centre and existing network in the period.	 Total ordinary dividend of 25.0 pence in 2019, and ongoing commitment to a progressive dividend policy.
Long established Relationships	 Long-established supplier partnerships, working with 190 suppliers in 19 countries during 2019. 	• Exceptionally broad and diverse customer base, with 5.3 million orders processed in 2019.	• Modest average order value of £136 reflecting RMI spend towards the lower-end of the range, with little reliance on larger projects and new construction activity.
Operational Improvement Programme	• Comprehensive programme underway to improve operating performance, the customer service proposition and margin.	• Early-stage financial contributions able to offset general non-employee related year-on-year inflationary pressures in 2019, with increasing future contributions able to enhance margin.	• Improvements to customer service already evident through increased product availability and more efficient delivery operations, which additionally reduces carbon footprint.
Extensive Network	• Extensive network and inventory supporting the customer service proposition, with inventory position of £132.5 million at period-end and improved management creating growth capacity.	• Largely freehold property portfolio underpinning value, with property, plant and equipment assets totalling £114.6 million.	• Substantial time and resources required to replicate network and service levels, creating a significant barrier to entry.

Commitment to the highest levels of corporate responsibility and governance further reinforces the Investment Case.
